**REPLY BRIEF**

Dear Sir:

This is submitted in response to the Examiner's Answer, dated March 27, 2006, in which, in response to Appellants' brief, he has called attention to a typographical error in that brief. On page 6 of the Examiner's Answer on line 10 the Examiner refers to a reference numeral 38. That number is incorrect as the element Appellants intended to identify is numbered 58. This is the circular portion that engages the like shaped surface of the core and which is lacking in the reference. Appellants' attorney apologizes for this error.

Respectfully submitted:
